TABLE NO. 1

FINANCIAL DATA RELATIVE TO THE CITY OF HOBOKEN, N. J.

Land values decreased in 1930 over the 1929 tax roll, the total for the city showing a decrease of $626,800. Improvements show a slight increased valuation of $46,600. Personal property showed the largest increase in the city's ratables, $1,104,400, over 1929. Second class railroad property showed a small gain of $3,046 over 1929.

Property valued at $27,248,100 is at present tax exempt in Hoboken, and this obviously greatly increases the burden of tax-payers. The total amount Hoboken must raise in taxes for all purposes during 1930 is $4,899,658.47, an increase of $111,969.82.

TABLE NO. 2

In 1918 land was valued at $29,177.700 and in 1930 at $36,815,500, or an increase of $6,637,800—about 23%. Between 1929 and 1930, land values decreased $626,800.

Improvements during this period (1918-1930) showed an increased valuation of $6,257.900 or about 18%. Second Class R.R. Property showed an increased valuation of $4,846,582, or about 35%. Personal Property showed a decrease in valuation of $4,171,900, or a decrease of 34%. Personal property over the period shows decided fluctuation. In 1919 the value of Personal Property was $31,170,500; in 1920, $8,690,500. This decrease was due to the Remington Arms Company moving their plant from Hoboken.

The total ratables in 1918 were $86,925,982 and in 1930, $100,794,969, or an increase of about 16%.

The summary of increases 1918–1930 will be found in the table below:

TABLE No. 4

The table below gives a clear idea of the increase in the cost of the various units of government during the last thirteen years, which the Hoboken taxpayer helps to defray. Where is the greatest increase in costs occuring? In 1918, 70.8% of the total taxes raised for all purposes went to pay municipal and school costs in Hoboken and in 1930, 74.79% of the total taxes were appropriated for those purposes. The rest of the tax money was for county and state purposes. Again in 1918, the tax rate per $1,000 of ratables for municipal and school costs was $15.58 and in 1930 $36.26, a net increase of 132.7%. Similarly there was an increase in the cost of county government of 187.4%, while appropriation for state expenses rose approximately 20%.

TABLE No. 5

Two different tax rates for Hoboken are prepared each year, although the Old Hoboken tax rate is the official rate. In 1874 the Weehawken addition north of Twelfth Street was incorporated with Old Hoboken. There still remain refunded bond issues outstanding, carrying charges incurred by the city prior to 1874. The "C" and "D" improvement bonds, refunded November 15, 1901, become due November 15, 1931. The annual sinking fund and interest charges on these bonds amount to $10,656.77, and the principal of this issue is $196,000. The O'Neil judgment bonds were issued May 1, 1908, and become due May 1, 1938. The principal of this issue is $21,500 and the annual sinking fund and interest charges are $1,491.48. The listing of these charges against the property in Old Hoboken accounts for the two tax rates.

TABLE No. 6

In 1918, the total tax rate for Hoboken was $22.01; in 1930, $48.68, an increase of $26.67, or 121.6%. While the increase for the local government—school and city—has been 132.7%. (See Tables Nos. 4 and 5). Naturally a comparison between the tax rate in dollars and cents in 1915 and 1930 would need re-adjusting to allow for the decreased buying power of the dollar. When the cost of living rose, the salaries of the city employees were increased. The table below is a cost of living index showing what the buying power of a dollar has been and is as compared to 1913. In 1915 the per capita cost for local government, school and city, was $15.54 and in 1930 it is $64.56.* However in 1930 the dollar used to pay for living costs is worth only $.685 as compared to the 1913 dollar. Making this adjustment, the actual per capita cost for the schools and the city government in 1930 was $44.22. Compare this with the adjusted cost in 1915 of $15.39 per capita. This shows that there has been a NET increase in the cost of local government in Hoboken during the past fifteen years of $28.83 or 188.04%.

(U. S. Department of Labor Cost of Living Index used from 1915 to 1925 and National Industrial Conference Board Index for 1925 to 1930.)

*Based on a population of 56,523, as shown by the U. S. Census of 1930.

The

Hoboken Chamber of Commerce

The Chamber is constantly working for the civic needs of Hoboken, such as improved roads, adequate transit, co-ordination of existing social welfare organizations and improved housing conditions.

The Chamber seeks to help industry and commerce in Hoboken by working for improved transportation facilities, more equitable freight and express rates, by guarding against discriminatory and unwise legislation, by working for improved port facilities, better markets, more adequate postal service, by furnishing statistics of every conceivable nature regarding Hoboken.

The work of the Chamber is transacted through its officers, directors, its twenty-one committees of voluntary workers, all appointed because of their special knowledge of the important work to which they are assigned.

Every citizen of Hoboken who believes in the future of this city, is cordially invited to join the Chamber and help in the unselfish effort to make Hoboken a better place in which to live and in which to do business.
